DETAILED ACTION

1. Applicant has amended claim 16 in the amendment filed on 6/4/2008.

Claims 16-26 are pending in this Office Action.

Response to Arguments

2. Applicant's arguments filed 6/4/2008 have been fully considered but they are not persuasive.

Applicant argued that claim 16 get over 112 rejection by deleting " without further user command *throughout a day period* " in claim 16.

Because claim 16 is amended, the cope of claim 16 is changed. The limitations "subsequently throughout a day period: automatically repeating execution of said selected available aggregation actions; automatically repeatedly updating said Content Portion to display results of said repeated aggregation actions; periodically automatically presenting results of said broad search in said Content Portion of said single web page in a manner less conspicuous to said user than said aggregation action results" in claim 16 was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor.

As discussed above, Examiner maintained 112 rejection.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 16-26 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The limitations "subsequently throughout a day period: automatically repeating execution of said selected available aggregation actions; automatically repeatedly updating said Content Portion to display results of said repeated aggregation actions; periodically automatically presenting results of said broad search in said Content Portion of said single web page in a manner less conspicuous to said user than said aggregation action results" in claim 16 was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor.

Dependent claims 17-26 are rejected under the same reason as discussed in claim 26.

Conclusion

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action.
